

### **Flexible Car Engine Black Rubber Air Intake Filter Pipe**

KINGTOM is a major manufacturer and supplier of rubber products in China. Car Rubber Air Intake Filter Pipe direct replacement for a proper fit every time, Hose slides on easily for trouble-free installation, Rigorous quality control measures have been undertaken to ensure that this part conforms to product standards, Designed to accommodate all necessary PCV and emission fittings.

#### **Product Parameter of the Flexible Car Engine Black Rubber Air Intake Filter Pipe:**

- ①Product name: **Flexible Car Engine Black Rubber Air Intake Filter Pipe**
- ②Material: EPDM NBR Silicon or Can Custom
- ③Logo: Can Custom
- ④Size: Can Custom
- ⑤Can Custom: Black or custom
- ⑥Application: Automotive
- ⑦Certifications: IATF16949 ,ISO14001:2015,ROHS,CMC, etc
- ⑧Delivery: 30 -50days after sample confirmation
- ⑨Sample: 25-30 days
- ⑩Payment: 30% deposit, 70% payment before shipment
- ⑪Package: PE bags, Cartons,Pallet
- ⑫Payment Terms: T/T,L/C and so on.
- ⑬Shipment Way: Vessel,Air,Express etc.

**Product Feature AND Application of the Flexible Car Engine Black Rubber Air Intake Filter Pipe:**

**Flexible rubber air intake filter pipe** generally have two functions: The first and main function is to feed cool ambient air from the external environment, typically through air box channels from the front grill into the engine throttle body or turbocharger, through a vacuum.

With the development of modern engine management systems and fueling systems, another usage of the air intake hose is to house the critical air flow meter in both petrol and diesel applications.

While car engine rubber pipe are simple in nature, they have critical functions. If your car has a punctured or leaking air hose, it would cause very poor performance in the engine. If do not replace it, it could cause critical engine failure due to the extensive heat generated when running rich, as well as potentially causing fault codes in the engine management system.

We use high quality materials to manufacture premium quality air intake hoses that support great driving comfort and vehicle safety.
